

EH70 SERIES

1/2" TO 2" PIPE SIZE

16

Features:

The powerful, full port EH70 is a 2-way, unidirectional solenoid valve that is great for a wide range of temperatures, fluids and gases. It is a popular choice for natural gas applications in hazardous locations, as well as cryogenic conditions. This pilot assisted, direct operated valve can be configured with an Explosion Proof certified coil for all hazardous locations. Orifice sizes range from 1/2" to 2", and allow maximum inlet pressures of up to 1,500 PSIG. The versatile EH70 requires no minimum pressure for opening, and for sizes 1/2" & 3/4" sizes, can be mounted in any orientation. Normally Closed and Normally Open configurations are available for all sizes. This valve is CRN certified with all Canadian provinces. The stainless steel and PTFE internal components allow such media as deionized water, condensate, ammonias, vegetable oils, fuel oils, natural gas, hydrogen, cryogenics, flammable liquids and gases and other gases or liquids compatible with materials of construction. **Filters recommended for all applications.**

How To Order

Base Model Number		Connection size in NPT		Connection type		AC/DC Voltage and Hertz		Fluid		Suffix Option Field (s)	
EH70											
08	½"	A	NPT	A024	24 / 60	G	Gas	CY	Cryogenic Service		
12	¾"	B	Socket Weld	A120	120 / 60	L	Liquid	DN	Din Connector (Not Explosion Proof)		
16	1"	G	150# Flange	A240	240 / 60	D	Liquid + Gas	ETL	ETL Certified / Explosion Proof		
24	1 ½"	H	300# Flange	D024	24 DC			HY	Class 5 Leakage Test with Helium		
32	2"	J	600# Flange	D120	120 DC			NO	Normally Open		
				D240	240 DC			OX	Oxygen Clean		

Note for 'D-CY' Option:

Code 'D-CY' is to be used with Mixed Gas and Liquid Cryogenic Fluid.

It is not available in the 2" Size.

Possible EH70 Options & Add-Ons

Cryogenic Service

72" Lead Length

Din Connector

Hydrogen Service

Normally Open

Oxygen Clean

ETL Certified - Explosion Proof

Stainless Steel Tags

Tube Connector

Single Switch

NEMA 4X

Class V Leakage Test

Manual Override

The following are standard on the EH70:

Stainless Steel Valve Body

Universal Mount
*1/2" and 3/4" only

Certifications

CRN
(Canadian Registration Number)

ETL Listed solenoid is an available option, at an additional price.

Conforms to UL Std. 1203
Certified to CAN/CSA Std. C22.2 No.30

*Consult Factory for Listing and Pricing Details.

EH70 SERIES

1/2" TO 2" PIPE SIZE

19

Construction

Valve Body:	316 SS (CF8M)
Piston:	303 SS
Piston Rings:	PTFE (cryo to 400°F)
Plunger:	430 SS
Pilot Valve:	303 SS
Bonnet Tube:	304 SS
Bonnet Base Flange:	304 SS
Spring:	302 SS
Gasket:	PTFE Based (Durlon 9000™)
Valve Disc:	PTFE

Flow & Wattage

Pipe & Orifice Size	Max Inlet Pressure (psig)	Cv	Coil	Voltages Available	Approx Current (amps)
1/2"	1500	3.5	200 Series	24V AC/DC	2.6
3/4"	1200	7.5		120V AC/DC	0.7
1"	1200	13		220V AC/DC	0.5
1 1/2"	1200	25	300 Series	24V AC/DC	3.6
				120V AC/DC	1.0
2"	1200	48		220V AC/DC	0.5

Pressures Reduced for "D-CY" and "MN" Options.

Electrical (Coil)

Standard Coil:

- NEMA 4 (indoor/outdoor watertight)
- 1/2" NPT Female conduit connection
- 36" leads
- Continuous Service

Coil Option:

- ETL Listing for UL-1203, CAN/CSA C22.2 No. 30 certified for hazardous locations:
Explosion-Proof for Class I, Division 1, Groups A-D for Operating Temperature Code T2D
in -20 to +85 degrees C ambient; seal welded construction

Coil Option:

- NEMA 4x epoxy coating
